REAL COLORADO REPUBLICANS REJECT THE ONGOING CENTER-LEFT CANDIDATE SELECTIONS

After publicly rejecting America First, Top Line candidates, Republican Chair Kristi Burton Brown promised her center left candidates were the solution to winning in Colorado. She was wrong and so were those that supported this approach. For 15 years now the Colorado Republican party leadership has repeatedly dismissed inspiring grassroots candidates.

Our Republican Party leadership has failed us. They strayed from the foundation of what we stand for. We are no longer interested in, nor will we consent to the ongoing betrayal of our core American values by those who were trusted to lead.

The establishment continues to play by the rules of the past. Those manipulations are no longer working, nor do we want them to. We are seeking transparency and honesty to be pillars of the new Republican party that will be established. **New leadership is critical to guide us back to the core tenets of our platform.**

We have seen the resolve of grassroots from every corner of Colorado. We are simply regular people who are sick of losing everything, feeling unsafe and watching the destruction of Colorado under the Democrat Governor, Jared Polis. Polis's complete control of our state and the partnership of *Republicans in Name Only* must end. This union has accelerated the radical agenda that has led Colorado into historic inflation, violence and crime as we just witnessed in Colorado Springs this weekend. Crime is flourishing under weak leadership and bad policies. ***We have had enough.***

We will not endorse candidates who do not represent our platform accurately.

We will not accept the narrative of "we have to get R's elected!", even when they are repugnant to our values.

We recognize the definition of Insanity is doing the same thing over and over again and expecting different results.

We are done compromising our principles and allowing our voices to be silenced only to lose again and again.

We are the growing majority, and it is we who must rise together and lead this party back to its conservative foundation. Please join us for a press conference to stand together in solidarity to save our state and stop the insanity.

When: Nov. 30, 2022 Time: High Noon, 12:00pm MT Where: 5950 S Willow Dr, Greenwood Village, CO
